

NORTH FORT BEND WATER AUTHORITY

June 24, 2009

To: The City of Fulshear, Texas; Utility Districts located within the North Fort Bend Water Authority; their Attorneys, Operators and Engineers

From: North Fort Bend Water Authority

Re: North Fort Bend Water Authority
2013 Surface Water Conversion /Chloramine Disinfection Notification

The authority has determined a detailed schedule to assist complying with the Fort Bend Subsidence District (FBSD) alternate water conversion mandates by 2013. The enclosed table provides all the districts in the 2013 system a date by which they should be prepared to receive surface water. It also provides the deadline for districts owned water plant to complete chloramination conversion and any other water plant modifications required by TCEQ and the Authority.

The North Fort Bend Water Authority has open meetings on the fourth Wednesday of each month at the Cinco Ranch Golf Club at 6:00 p.m. If you have any questions or need additional information please contact the Authority's Engineer, Melinda Silva with BGE at 713-488-8289.

FBC MUD 35	NA ²	9/30/2012
FBC MUD 93	NA ²	9/30/2012

Note:

1. MUDs are encouraged to convert earlier than required.
2. Based on our knowledge, you do not have a water plant. Please notify us if this is incorrect.
3. Participants in Regional Water Systems should coordinate. Only lead Districts are receiving information about plant modification requirements.
4. Water plant construction has been postponed and the deadline for modification will be determined later.
